FOGGING PRE-TREATMENT PROCEDURES

***Please follow these directions to ensure the treatment will be effective**

1. Please allow the service specialist access to all the areas of the house and/or facility. Such as, removing any clutter, remove any toys from the floor area, removing any stored items in the closet and/or under the bed area and move any furniture away from the walls.
2. Turn the pilot light off on all gas stoves, ovens and/or appliances.
3. Turn off ventilation systems.
4. Disable smoke alarms and/or alert the local fire department that a pesticide application is being performed which may trigger the alarms.
5. Remove all people and pets from the house *i.e.* Dogs, Cats, Fish, Birds, etc. Birds and Fish are particularly susceptible to the treatment and are to be removed before treatment. If fish cannot be removed, tightly cover the entire tank and unplug the aeration and filter equipment.
6. Remove or tightly cover all exposed food, utensils, items in cabinets, and all items from infested areas and/or specific areas to be treated. When necessary, items in drawers and closets may need to be removed to allow treatment to these areas. Technician will not open drawers or closets, but if left open, they can be treated.
7. Remove or tightly cover all toys, bedding and any personal use products that may become contaminated.

POST-APPLICATION PROCEDURES

*** Please follow these directions before re-entering your home/facility**

1. Allow treatment to remain undisturbed for a minimum of 2 hours before allowing ventilation.
2. Ventilate the treated areas for another 2 hours before re-entering the treated areas.
3. Thoroughly clean and wash all food preparation areas, sinks and counters prior to use. Regular household cleansers can be used and/or soap with warm water will remove any residue.
4. Thoroughly clean all exposed utensils, cooking items, etc. prior to use.
5. Vacuum all exposed furniture, floors and open areas to remove residue and/or pests from the treated areas. **PROMPTLY DISCARD VACUUM BAG.**
6. Return all appliances, alarms, etc. to normal functions once the treated areas are completely clean.

Note:

If Preparations are not performed upon arrival of the service specialist, the customer may be billed a convenience charge in addition to the service charge for the rescheduled service. A minimum of 48 hours is required for cancellation of services to allow for cancellation procedures. Rescheduled services will be performed at the convenience of Alliance.
